

Driving Payment Innovation:

From Market Presence to Next-Gen Smart Terminals

Julien Decoster

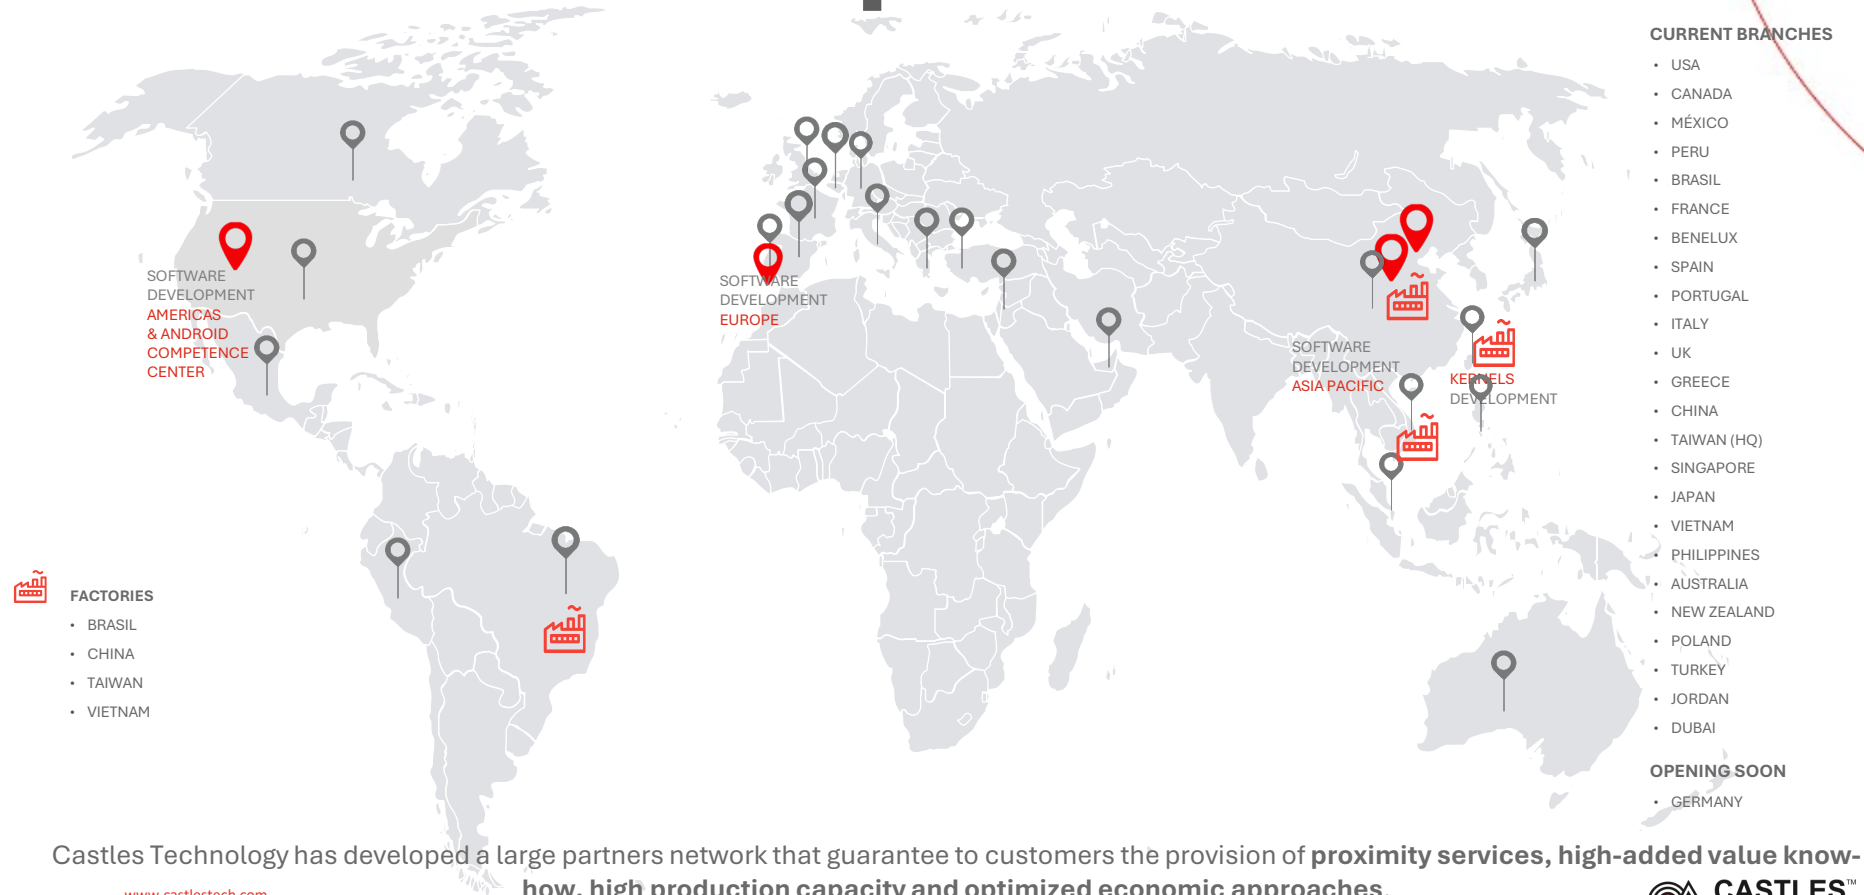

Deputy Chief Product Officer

Who is Castles Technology ?

A leading global POS technology provider.

Our Global Footprint.

Castles Technology has developed a large partners network that guarantee to customers the provision of **proximity services, high-added value know-how, high production capacity and optimized economic approaches.**

Our presence with **Payten**

- Collaboration started in 2018
- Castles supports Payten in various use cases
 - ✓ Mobile POS
 - ✓ Integrated Pinpad
 - ✓ Unattended

More than 60 000 devices in the field, and growing !

The Industry is Shifting.

Payment is about **experiences, data and ecosystems.**

Cash to Cashless.

Payments are becoming fully embedded.

Offline to connected.

Consumers expect mobile-first, tap-and-go simplicity.

Reactive to Proactive.

Loyalty, personalization, and connected services are now table stakes.

Transactions to experience.

Payment ecosystem need smarter “tools” to stay competitive.

What Makes Us Different.

PURPOSE-BUILT.

Rugged, certified,
field-tested.

PAYMENT-FIRST.

Seamless,
compliant,
future-proof.

VERTICAL- READY.

Retail, transit,
hospitality, and
beyond.

INSIGHT-DRIVEN.

Real-time data
and management
tools.

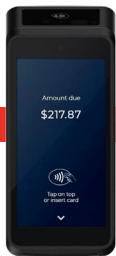

PARTNERSHIP MODEL.

End-to-end
support, global
reach.
